

POWER 2 PROFIT

THE CONTRACTOR'S ADVANTAGE

LEGACY *OF INNOVATION...*

When my father, Marvin Steiner, began building equipment in the late 1930's, he built machines designed to be reliable season after season - year after year. Through his inspiration, the journey of Ventrac began and continues today. Our focus remains the same as we proudly stand behind the reliable, quality products that we produce.

As a family-owned company, we are committed to our unwavering principles of ethics and high standards that are evident in every aspect of our business.

It is my passion that every Ventrac owner has equipment they can be proud of and that works exceptionally well. You can be assured that when you own a Ventrac, you have a solid machine that will serve you for years to come.

Thank you for your interest in Ventrac.

Dallas Steiner

Dallas Steiner
CEO

4500

After one test drive on this incredibly agile, yet power-packed tractor, there is no doubt that you will discover the value the **Ventrac 4500** has to offer you.

If your grounds require year-round maintenance, then you need equipment that can work year round. Ventrac is uniquely designed to be the one tool that can do many seasonal tasks, with results that meet the highest expectations.

- Heated Cab
- All-Wheel Drive
- Quickly Change Implements
- Fast Hydrostatic Controls
- Plow & De-ice in One Pass

SLOPE
IND

PE MOWING & SNOW REMOVAL INDUSTRY LEADER

SLOPE MOWING

BENEFITS:

- Increased Safety on Slopes
- Rated for 30° (58% Grade)
- All-Wheel Drive
- Dual Wheels for Wide Stance
- Articulating & Oscillating Frame
- Low Center of Gravity
- Digital Slope Gauge Optional
- Traction Control

OFFER SERVICES YOUR COMPETITION *CAN'T*

Ventrac offers you more Power to Profit by giving you the ability to add services to your business on the front of the **tractor you trust**. Adding more services to your business gives you the ability to **generate more revenue**, especially in the slower seasons of the year. In this book, we show you the **top five attachments** professional contractors add to their Ventrac fleet to give them the **Power to Profit**. Call your local dealer to demo or rent these attachments and add more profit to your business!

“We start out with one service and we can offer them five or six services with the same unit. We are always looking at what other services they are looking for and is there an attachment that we can put on our Ventrac.”

Bert Hillyard | TOPAZ PROPERTY SERVICES LTD.

“With a Ventrac, you are adding more value to your customers, getting more of their wallet share and you are increasing your profitability”.

Phil Harwood | CEO of PROMOTION CONSULTING, LANDSCAPING CONSULTING

AERA-VATOR

BRUSH MOWING

“Over the years, we have bought approximately sixty-five Ventrac’s. They are faster, easier to maintain, and do a better job on the wet slopes.”

Glenn Garret
Retention Pond Services

TOUGH CUT

When you own a Ventrac Tough Cut mower, you own a tool that allows you to clear places that no other piece of equipment would dream of going. This attachment will allow you to unlock the doors to new opportunities for mowing dams, retention ponds, and other steep overgrown areas that commercial properties need cleared.

BENEFITS:

- Clear heavy brush
- Bid new opportunities
- Higher profit jobs
- Works quickly
- Reduces manual labor costs

STUMP GRINDER

If you are tired of mowing around trees stumps on some of the properties you maintain, don't wait for that property owner to call someone else to come in and remove those stumps. Add more value for your customer by offering stump grinding services with the Ventrac Stump Grinder.

This attachment is ideal for contractors who want to quickly remove a stump without damaging the surrounding areas.

BENEFITS:

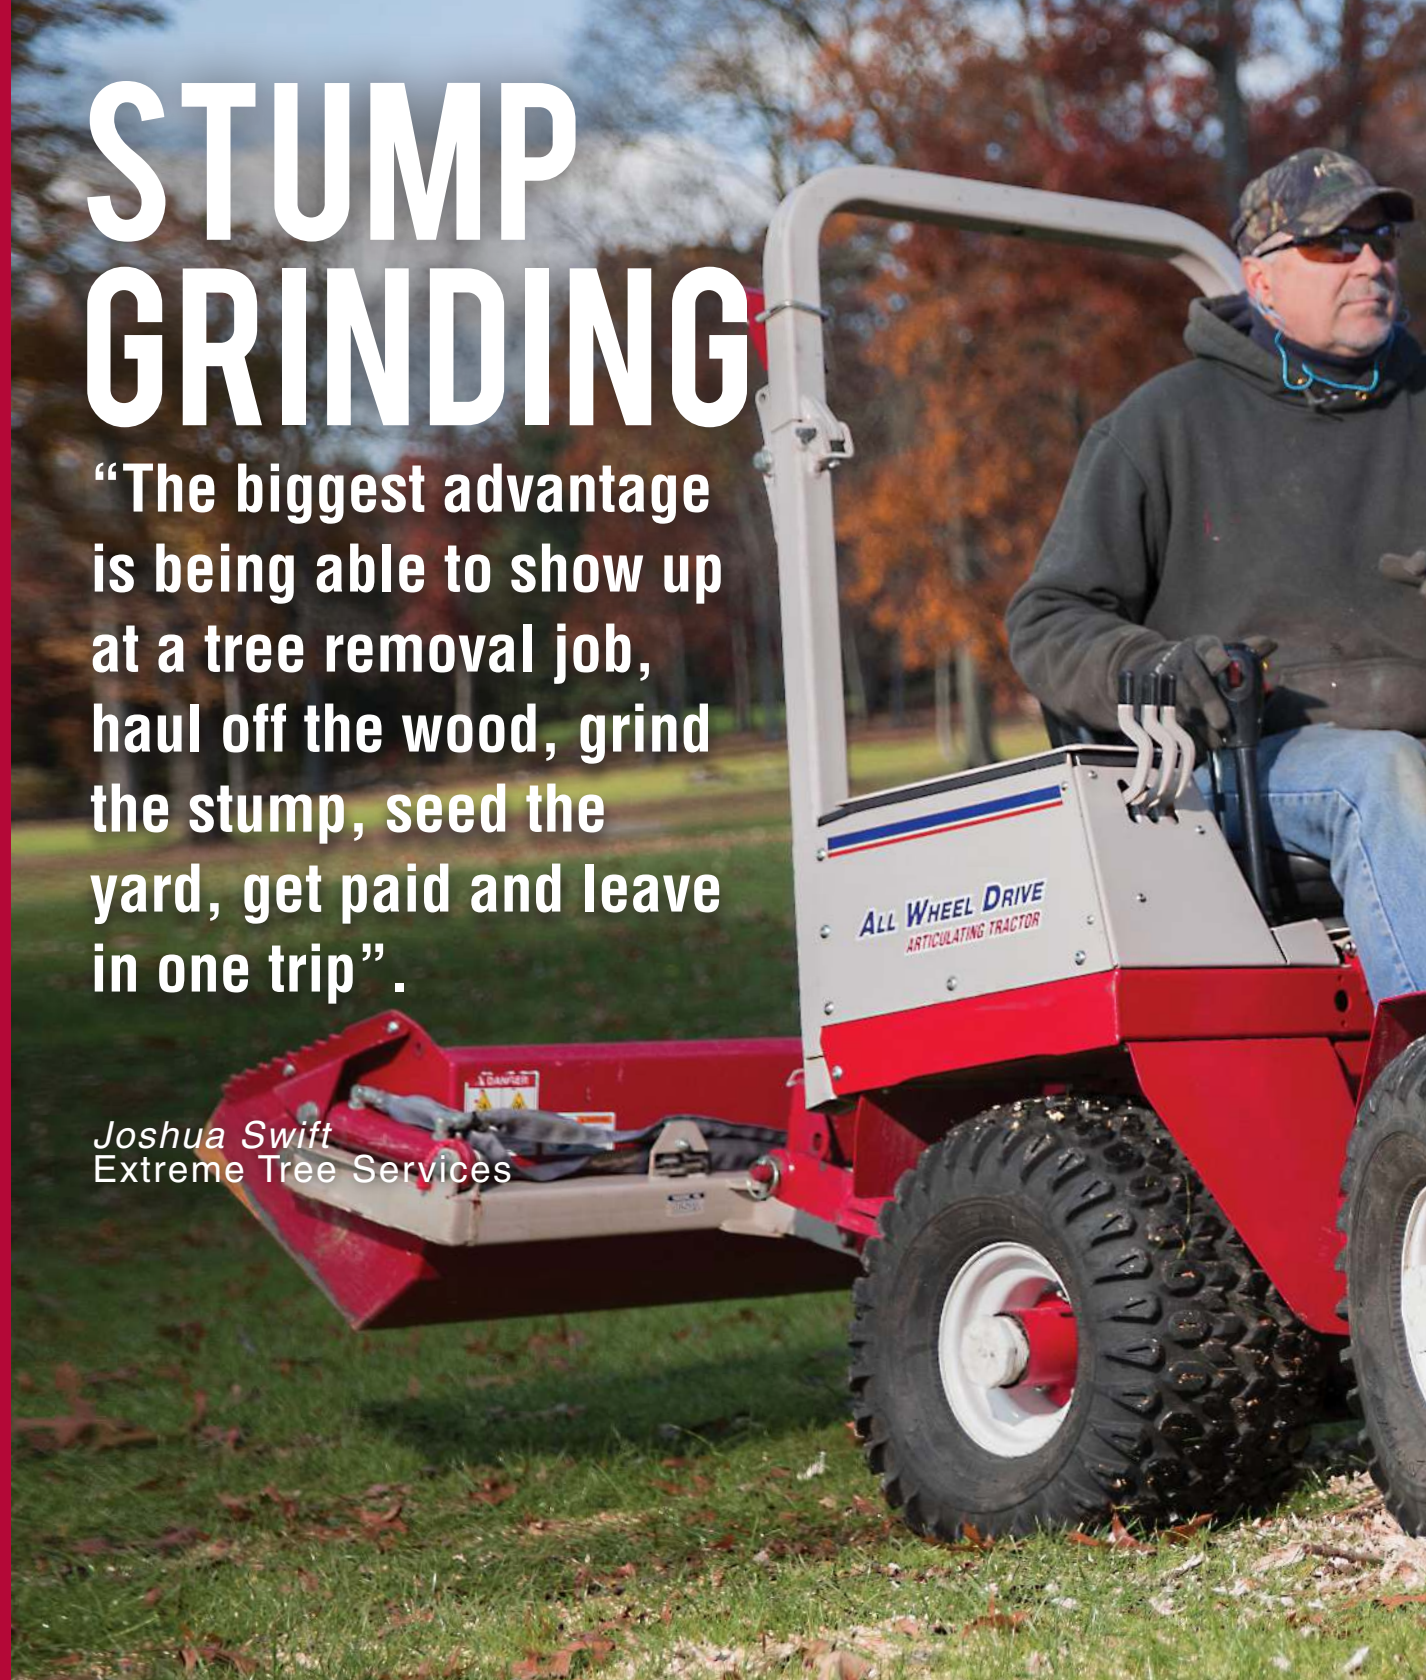

- Blast through stumps
- Bid new opportunities
- Add value for your customers
- Minimal turf damage
- Small attachment fits easily on truck

STUMP GRINDING

“The biggest advantage is being able to show up at a tree removal job, haul off the wood, grind the stump, seed the yard, get paid and leave in one trip”.

Joshua Swift
Extreme Tree Services

LEVELING & RENOVATION

“After 30 years in business I thought I had seen it all...this thing is phenomenal”

Stan Genadek
Genadek Excavating

POWER RAKE

The power rake will set you up for opportunities that other contractors only wish they could do. This tool will allow you to take on jobs such as new lawn installation, lawn restoration & leveling, and gravel driveway renovations. These jobs can be very high profit, with a high value for your customers.

BENEFITS:

- Level tough areas
- High profit jobs
- Bid driveway restoration work
- Easy finish grading
- Easier to trailer & transport

TRENCHER

Offering trenching services can be an overlooked opportunity for most landscape contractors. For those that think outside of the box it's a great opportunity to generate profit and a new revenue stream. This tool give you the ability to trench drainage ditches, cut in new lines for electrical or gas installations, or put in new lines for gutter drains.

BENEFITS:

- Higher profit jobs
- Low competition work
- Minimal turf damage
- Quick site to site transport
- Faster than mini-skid steers

FAST & EFFICIENT TRENCHING

“As a utility contractor, I was really impressed with the speed of the machine...and it doesn't damage the turf more than necessary”

Leonard Steiner
Steiner Trenching

CORELESS AERATION

“There is no such thing as a perfect piece of equipment, but Ventrac is as close to it as you can get. Every attachment is a true piece of equipment, not an afterthought as most of the other manufacturers do.”

Mike Siler
Silers Stump Grinding

AERA-VATOR

When you offer coreless aeration services, your clients will be amazed at the results they see on their lawn. The Ventrac Aera-Vator, with the optional Seed Box, allows you to add multiple revenue streams by offering aeration and over-seeding services. This tool opens the door for your business to offer sports field management services to schools and parks for their baseball and football fields.

BENEFITS:

- Aerates without pulling plugs
- Higher profit jobs
- Low competition work
- Year-round capability
- Aerate and over-seed in single pass

ATTACHMENTS
